

How to find out what your Social Security will be (PIA – Primary Insurance Amount)

www.ssa.gov/myaccount/

Click on:

Sign in or create an account

Once you are there you must be able to verify some information about yourself and:

- Have a valid email address,
- Have a Social Security number,
- Have a U.S. mailing address, and
- Be at least 18 years of age.

You can only create an account using your own personal information and for your own exclusive use.

You cannot create an account on behalf of another person or using another person's information or identity, even if you have that person's written permission.

For example, you cannot create an account for another person:

- With whom you have a business relationship,
- For whom you are a representative payee, or
- For whom you are an appointed representative.

From this site you can get:

- Estimates of your retirement, disability and survivors benefits
- Your earnings record
- The estimated Social Security and Medicare taxes you've paid.

The signup process takes about 10 minutes. Once you are done you will be able to access your information much easier than by phone or going to a Social Security office.
